

The FIDM Student

The student body is a dynamic force that speaks for itself.

Our students are what make FIDM so special: they are dedicated and focused. They share common bonds, but are incredibly diverse. We want to help each of our students, from the artist to the entrepreneur, discover and build on their particular abilities. FIDM is about going to college with people who have similar goals, dreams, and passions. FIDM is simply not like any other college. You feel the difference when you walk in.

Hands-on workshops are part of the FIDM curriculum.
