

FIDM. CREATIVE CAREERS BEGIN HERE.

Our driving force has been to stay focused on our goal — creating an educational environment where students can learn and grow, a school that fuses student desires with career realities.

We never lose sight of this goal. We are in constant contact with industry leaders. For over 45 years we've had our fingers on the pulse of emerging industry needs. It's a process of give-and-take with the creative community.

< *Advanced Study Fashion Design student Mohamed Salaheldin does a final fitting for the DEBUT Runway Show.*

Our graduates own thriving fashion, graphics, and interior design companies. They're in charge of merchandising and buying for major department stores. Some work as cosmetics executives, design sportswear, textiles, or haute couture, while others create costumes for Emmy®-and Oscar®-nominated films.

Everything we do, from curriculum to career services, is geared toward ensuring that our students graduate with the skills and work experience necessary for success in their chosen field.
