1 On-time completion rates for students who completed their program between 7/1/11 and 6/30/12 (Graduation dates September/December 2011 and March/June 2012).

2 Placement rates were compiled from institutional records and are based on information from the 2011-2012 academic year. Of the eligible graduates actively seeking work, over 90% of all majors and programs found employment within six months of graduation.

3 Includes Books & Supplies. Tuition & Fees shown are for a student completing the program within the normal time. Costs are shown at the prevailing amounts at the time of the printing of this document. It is not a promise that a prospective student will be able to take his or her second year at that rate. A change in major will result in a change in cost.

4 Represents accumulated debt for students who completed a program between 7/1/11 and 6/30/12.

5 Based on CIP (Classification of Instructional Programs) and SOC (Standard Occupational Classification) codes.

6 In order to protect the privacy of students, the information is not included if there were fewer than 10 students in this major.

❖ A.A. Professional Designation Program – Open to students who already have a degree from FIDM or another regionally accredited degree program

◆ A.A. Advanced Study Program – Open to students who already have a degree from FIDM

△ Bachelor of Science Program – Open to students who have an A.A. degree from FIDM.

■ This amount reflects total costs for the junior and senior year of the Bachelor's program. Students are required to have completed their Associate of Arts degree at FIDM, for which the average cost is \$58,743.

◇ Represents new programs for which placement information did not exist for the reporting period.

As of the date of publication, no NCES (National Center for Education Statistics) template was available for gainful employment disclosure purposes.
